

Grade 3 Learning Invitations – # 3

Wonder of the Week (May 4-May 8): How might we show gratitude and thanks?

Here is a **Choice Board** to guide your child’s home learning. Choose one activity a day that works for you and your family. You can do more, or some choices more than once. Have fun!

Well Being	Literacy	Numeracy	Explore
<p>Write ‘thank you’ notes to members of your family. Post and hide them in unexpected places in your house for them to find.</p> 	<p>Write a list of 5 or more things that you are thankful for. Can you add details to explain why you are grateful for these things? Who can you share this list with?</p> 	<p>Fill up the sink or a bucket outside, with water. Get different containers and explore which containers hold more. What kind of containers hold more water?</p> 	<p>What do your senses tell you when you are outside? Find a spot to sit outside. Look around. What do you see, think, feel, and hear? Write or draw a list of these things.</p> 
<p>Help a family member make a meal or with the clean up afterwards. You can also help create a menu too!</p> 	<p>Write each letter in the word ‘gratitude’ on a small square paper. Move letters around so see how many other words can you make with the letters in “gratitude”?</p> 	<p>Choose a number: 12, 20, 50, 100. What different ways can you make this number? Using words, symbols, tallies, dots, equations [+/-], etc. as you think about composing the quantity (4 and 4 and 2 make 10).</p> 	<p>Go on a flower hunt outside. What do you notice about flower petals? How many petals do flowers have? What about shapes, sizes, colours and designs?</p> 
<p>Make a circle. Jump in and out 10X. Do this 2 more time to aim for more jumps each time.</p> 	<p>Write a ‘thank you’ letter to or make a card for friends or extended family members. Send it to them by mail or digitally.</p> 	<p>When might you need to add two numbers or amounts together when you are doing things at home? Draw or write a story about this.</p> 	<p>Hide an item and see if a family member can use a map to find the treasure. Include directions and number of steps to the treasure. Take turns hiding and hunting for treasure.</p> 

Daily Reading

*After reading a book, share with someone what the problem and solution was or a few interesting facts about what you read.

*Listening or reading books from an online website Tumblebooks:
